

SAUDI FELLOWSHIP TRAINING PROGRAM

CLINICAL PHARMACY IN PARENTAL NUTRITION

Final Written Examination

Examination Format:

A Saudi subspecialty fellowship final written examination shall consist of one paper with 80-120 Single Best Answer MCQs. 10% unscored items can be added for pretesting purposes.

Passing Score:

1. The passing score is 70%.
2. If the percentage of candidates passing the examination before final approval is less than 70%, the passing score must be lowered by one mark at a time aiming at achieving 70% passing rate or 65% passing score whichever comes first. Under no circumstances can the passing score be reduced below 65%.

Note:

This list includes the latest published guidelines before July 2024, and it is intended for use as a study aid only. SCFHS does not intend the list to imply endorsement of these specific references, nor are the exam questions necessarily taken solely from these sources.

Blueprint Outlines:

No.	Sections	Percentage
1	Malnutrition Screening and Assessment (Adults and Pediatrics) ¹	10
2	Nutrition and Energy Metabolism (Adults and Pediatrics) ²	12
3	Fluids, Electrolytes, and Acid-Base Disorders ³	15
4	Drug-Nutrient Interactions ⁴	8
5	Micronutrients Management ⁵	10
6	Complications of Parenteral and Enteral Nutrition	15
7	Enteral Nutrition	8
8	Parenteral and Enteral Access Devices	5
9	Nutrition Support in Specific Populations	12
10	Home Nutrition Support	5
Total		100%

- ¹ Malnutrition Screening and Assessment: including Nutrition Focused Physical Examination (NFPE) and defining malnutrition classifications.
- ² Nutrition and Energy Metabolism: including methods to determine energy expenditure and macronutrients metabolism.
- ³ Fluids, Electrolytes, and Acid-Base Disorders: including calculating fluid requirement and management of electrolytes and acid base abnormalities.
- ⁴ Drug-Nutrient Interactions: including physical, pharmaceutical, pharmacokinetic, and administrative related interactions.
- ⁵ Micronutrients Management: including Assessment, diagnosis, and management micronutrient deficiencies and toxicities.

Note:

- Blueprint distributions of the examination may differ up to +/-5% in each category.
- Percentages and content are subject to change at any time. See the SCFHS website for the most up-to-date information.
- Research, Ethics, Professionalism and Patient Safety are incorporated within various domains.
